Bits	Gymnastics	Walking	Creeping	Dance
Math	Music	Brachiation	Vestibular	Other: _____

If you have been unable to do a consistent program, what information do you feel would be most helpful to you?

Over please

THE HOW TO MULTIPLY YOUR BABY'S INTELLIGENCE[®]
GRADUATE COURSE

Eligible to take the course are parents who are graduates of the *How To Multiply Your Baby's Intelligence* Course. They are mothers and fathers who wish to make a career of being parents and believe that all babies and tiny children can perform at much higher levels than is presently the case. No academic degree is required. Enrollment is limited to 80 students.

Years of preparation and experience have gone into the course. Every moment is used to give the greatest amount of information to the parents attending the course. It is only possible for the vast amount of information covered to be presented in such a short period of time in an atmosphere totally free of distractions. For this reason, it is not possible for children to attend the course. Enrollment is therefore only available to parents who are able to leave their children at home in loving and competent hands.

All parents attending every session of the course will receive a certificate of competence at the Advanced Professional Parent Level of Human Development. This certificate qualifies parents to use the knowledge gained during the week with their own children. It does not qualify parents or professionals to teach anyone else.

A non-refundable deposit of \$100 *per person* is required at the time of enrollment to secure a place in the course. The balance is due one month before the course.

There is an additional fee for parents requiring translation services.

Information about local accommodations and transportation will be sent with confirmation of your enrollment.

Please complete the application for enrollment and mail to:

Dear Parents,

We look forward to having you as a participant in the *How To Multiply Your Baby's Intelligence* Graduate Course in the near future.

In preparing to attend the course, please bear in mind the following:

1. Infants, indeed children of any age, should be left at home in competent and loving hands. Children who are traveling with both parents while one parent attends the course must be provided for off the campus of The Institutes for the entire week. It is not possible for us to provide child care or space for such care on campus during the course.
2. More than twenty years of experience have proven that it is not possible for nursing mothers to successfully attend the course while simultaneously nursing their babies during breaks. If you are nursing your child, please be aware that for the welfare of your child you should wait until your baby no longer requires nursing before you attend. For the good of all mothers and babies we can make no exceptions regarding children on campus.
3. The temperature in our auditorium is maintained at 65° F. We recommend that you bring a warm sweater or coat to wear during classes.
4. Lunch is provided daily for your convenience. Please indicate on your application if you require vegetarian meals.

If there are any changes in your plans to attend the course, please let us know immediately by telephone and in writing.

We look forward to seeing you in the near future.

Most sincerely,

Registrar

STATEMENT OF GOALS AND OBJECTIVES

The *How To Multiply Your Baby's Intelligence* Graduate Course is designed solely for parents. The objective of this five-day course is to teach parents how to teach their own babies. Successful completion of this course qualifies parents to use this information with their own children. It does not qualify a parent to instruct other children, other parents, or professionals in the work of The Institutes for the Achievement of Human Potential. The goal of this course is to create better babies, and therefore better adults, through parents.

We trust that parents attending this course will understand the importance of the objectives of this course and appreciate what it does, and does not, qualify them to do when they have completed it.

I have read and understood this STATEMENT OF GOALS AND OBJECTIVES of this course and I agree that I am responsible for my child's development with the instruction techniques taught in this course. I acknowledge that attending this course does not qualify me to teach anyone but my own children. I agree to use this information only to teach my own children. I will not use the information from this course to teach other children, or to instruct other parents or professionals in the work of The Institutes. This commitment is critical to the understanding between The Institutes and me. Nothing in this STATEMENT OF GOALS AND OBJECTIVES of this course grants any other license or rights in the work of The Institutes®.
